BSA to assess Lower Manhattan's rebirth

The AIA New York Chapter — the Manhattan chapter of the AIA — this year becomes an official co-sponsor of Build Boston as programming collaboration with our colleagues in New York continues to expand every year.

One of the more significant opportunities this year will be an exploration led by our New York City colleagues of the future of lower Manhattan. This exploration — “The Rebirth of Lower Manhattan: One Year Later” — is the opening event at Build Boston on Tuesday, **November 12**. It is a three-hour forum (Build Boston event #A01) moderated by AIA New York director **Rick Bell FAIA** and including Roland Betts (Chelsea Piers Management), Bob Davidson FAIA (chief architect for the Port Authority of New York and New Jersey), Mark Ginsberg AIA (“New York New Visions”) and Kohn Pedersen Fox principal Jill Lerner AIA.

McGraw-Hill returns with Build Boston keynoters

With three keynote luncheons, the McGraw-Hill Construction Group and McGraw-Hill's Construction.com this year once again bring a significant professional-development dimension to Build Boston.

As a principal co-sponsor of Build Boston, McGraw-Hill's keynote luncheon presentations focus on critical building industry issues:

- ▲ On Tuesday, **November 12**, McGraw-Hill building industry economist **Robert Murray** focuses on “The Construction Outlook for the U.S. and New England” (it is Build Boston event #A25)
- ▲ On Wednesday, **November 13**, McGraw-Hill Construction Group president **Norbert W. Young Jr. FAIA** explores “The Future of e-Business and the Construction Industry” (event #B25)
- ▲ On Thursday, **November 14**, Construction.com editor-in-chief **Judy Schriener** focuses on “Technology in the Building Industry” (event #C25)

Each of these keynote luncheons is moderated by BSA President **Robert Brown IIDA, AIA**, a principal with CBT/Childs Bertman Tseckares.

Robert Murray

Norbert Young FAIA

Judy Schriener

Rick Bell FAIA

Robert Brown IIDA, AIA

After November 4, Build Boston registration is on site at the World Trade Center Boston beginning at 7:00 am on Tuesday, November 12.

	Event	Location/Sponsor	Cost/RSVP
September 9 – November 8 M-F, 9:00 am–5:00 pm	“Harleston Parker Retrospective” — a special exhibit of Harleston Parker Award-winners from 1923 through 2001 (see p. 5)	The Architects Building Sponsored by Suffolk Construction Co.	Free RSVPs not required
November 11 6:00–8:00 pm	“Working Abroad” — the monthly series focusing on New England architects working abroad this month welcomes Been Wang AIA (see p. 5)	The Architects Building Sponsored by the International Committee	Free RSVP: 617-951-1433x221 bsa@architects.org
November 12–14 8:00 a.m.–10:00 pm	“Build Boston” — the 18th annual BSA convention and tradeshow for the U.S. building industry (see pp. 1, 3, 4, 8 & 9)	World Trade Center Boston Sponsored by the BSA and co-sponsored by AIA New York	800-544-1898 for details RSVP: 617-951-1433x221 bsa@architects.org
November 12–14	“Young Designers Professional Development Institute” — the fourth annual edition of this year-long training curriculum for young designers (see p. 9)	World Trade Center Boston Sponsored by the BSA and Gathering Pace Consulting	800-544-1898 for details Details: rfitzgerald@architects.org 617-951-1433x232
November 18 6:00–8:00 pm	“Professional Ethics” — the monthly informal forum on ethics and architecture	The Architects Building	Free RSVP: 617-951-1433x221 bsa@architects.org
November 27 6:30 p.m.	“Young Professionals Advisory Council” — this is the monthly gathering of young designers at the BSA; all members and non-members are welcome (see p. 6)	The Architects Building	Free RSVP: 617-951-1433x221 bsa@architects.org
December 3 noon–2:00 pm	“Career Transition Network” — the monthly gathering of unemployed design professionals (see p. 5)	The Architects Building Sponsored by the BSA’s Career Transition Network	Free RSVP: 617-951-1433x221 bsa@architects.org
December 3 6:00–8:00 pm	“Women in Design” — the monthly networking forum for women in the design professions; this month we focus on mentoring (see p. 5)	The Architects Building Sponsored by the BSA Women in Design Network	Free RSVP: 617-951-1433x221 bsa@architects.org

400 new product exhibits and...

- ▲ **The Rebirth of Lower Manhattan** (Build Boston event #A01; November 12)
- ▲ **McGraw-Hill Construction’s daily keynote luncheons** (events #A25, B25 & C25; November 12–14)
- ▲ **Third Annual Women In Design Conference** (events A03 and nine related workshops; November 12)
- ▲ **Second Annual Healthcare Facility Planning Symposium** (A17 and seven related workshops; November 12-14)
- ▲ **The BSA/Build Boston Design Celebration** (event #C76 on November 14...the party)

...and 200 other workshops and networking events

Register by foot after November 4

At the end of the day on **November 4**, the advance registration process for Build Boston comes to an end — that means the on-line, 800-number, fax, and snail-mail registration period ends.

If you missed the discount registration deadline in October and you are reading this after November 4, you should plan to do all your Build Boston registration on-site beginning at 7:00 am on November 12. Registration is open from 7:00 am to 7:00 pm all three days of Build Boston (November 12–14). 

The price is right

There is no general registration fee for Build Boston as we celebrate our 18th Build Boston anniversary and the 135th anniversary of the BSA this year. The BSA's intent is to make Build Boston financially accessible to everyone at every staff level in every building industry firm, organization and agency. Here's how we do that:

- ▲ Anyone can go to any workshop or other event for the price of that event only — there are no additional convention fees, entry fees, or registration fees if you register for a workshop or any other event (even a free event).
- ▲ Individuals and firms also take advantage of both the discount registration deadline, which was October 18, *and* the multiple-workshop discount that enables anyone to register for workshops at significant savings.
- ▲ You can go to Build Boston workshops free simply by volunteering to help on-site for a brief period during Build Boston. For details on this option, write/call Meghan Warner (617-951-1433x221/mwarner@architects.org).

The BSA also offers 500 workshop scholarships for young industry professionals (see the story on p. 9).

The only way we could make it easier for you to attend Build Boston would be to pick you up in the Build Boston limo...so we will. The Build Boston/World Trade Center limo (*read*: shuttle bus ) runs from South Station every half hour during Build Boston and it is free.

If you do not already have your copy of the Build Boston program, you can find it on the web at www.buildboston.com or call 800-544-1898 for another copy. 

Robert Brown IIDA, AIA, President

Healthcare planning is focus of Boston symposium

Strategic planning, healing environments, research in patient-care settings, clinical business planning, managing imaging technologies, ambulatory-care planning, managing the patient experience in ambulatory-surgery settings and capital needs for healthcare facilities are among the issues examined in a special three-day healthcare facility design and planning symposium at Build Boston on **November 12–14**.

Sponsored by the BSA, the New England Healthcare Assembly and the national AIA Academy of Architecture for Health, this unique Build Boston conference was organized by Boston healthcare planner Gary Lahey AIA and brings together a variety of healthcare planning and management experts to focus on the most critical issues facing the industry today. We urge you to join us by registering on-site at Build Boston. 

*Bob Humenn AIA, Chair
BSA Healthcare Facilities Committee*

Live charrette creates new space on Memorial Drive

A “live” charrette for young designers and seasoned professionals on **November 12** will investigate development ideas for the Cambridge side of the Charles River. The intent is to create amenities for Cambridge residents similar to those provided for Bostonians. We will study a site adjacent to Memorial Drive between the BU Boathouse and the Riverside Boatclub.

Our goal is to generate ideas about civic interventions, random and planned spaces on/near the riverfront.

This special charrette is a live event at Build Boston beginning at 2:00 pm on **November 12** and ending with a peer critique of the charrette-generated ideas followed by a reception for all participants.

The charrette is limited to the first 40 souls who register...and all registration is on site after November 4. 

*Haril Pandya, Assoc. AIA, Chair
Young Professionals Advisory Council*

Find it on-line

Visit the award-winning BSA website at www.architects.org for details on all BSA news and events and other industry news, events and information.

Women in design gather this month for annual conference

Hold the date. November 12 — that is next month's third annual Women in Design Network conference at Build Boston. Titled "Transformation: the experience of design", the day-long conference focuses on the discussion of ideas and opportunities related to design and its influence on society. The conference workshops and other events are designed to inspire far-reaching thought on the experience of design and its power to change, shape, form, transform — socially, culturally, politically, spiritually.

The conference includes three distinct elements — panel discussions/workshops, an awards luncheon, and an exhibit:

▲ A series of nine **workshops** led by leading design professionals explores the implications of transformation from the literal role of design in changing and creating place to the ephemeral, individual experiences of transformation.

▲ At a mid-day **awards** luncheon, we honor outstanding leaders in the design professions "who have designed their own lives in design, whose works exemplify the best of process and product and who use their positions of achievement to give back to the world of design and to the community at large".

▲ A special **exhibit** that opens in the Build Boston exhibit hall and later travels to other sites in Boston features the work of design professionals in diverse disciplines, roles, years of experience and programs. Women at all professional levels and in all roles participate in the exhibit with images of their built or unbuilt work that explores "Transformation: the experience of design" as it relates to one of the following: Space (physical), Design (process) or Experience (of the user).

All registration after November 4 is on site at Build Boston on November 12 beginning at 7:00 a.m.

Women in design

The BSA's Women in Design Network has a new web page — www.women-in-design-network.org. Visit now to learn more about the network, the monthly "Conversations", and the conference at Build Boston.

700 industry professionals shape this design celebration

The second annual BSA/Build Boston Design Celebration and Awards Gala begins at 7:00 pm at the Seaport Hotel on **November 14**.

Last year the inaugural edition of this design celebration drew close to 700 architects, clients, contractors, engineers, and other design and construction industry professionals for an evening of networking as we enjoyed a continuous, four-projector display of scores of design award-winning projects recognized in BSA and AIA New England design awards programs.

Among the highlights of the evening last year — and again this year — are the projection kiosks designed and built by architects and contractors selected through a design competition that occurs earlier in the year.

Amid the networking and multimedia design celebration, the BSA also takes a moment to honor an extraordinary colleague who has served the profession in Boston and nationally for many decades.

Cambridge Seven Associates principal **Chuck Redmon** FAIA is the recipient of the BSA's 2002 Award of Honor and we invite everyone in the industry to join us as we express our appreciation to this special soul during the design celebration.

Chuck Redmon FAIA

This extravagant evening is made possible by the generous sponsorship of Vanderweil Engineers and supporting sponsors Brodeur Window Distributing Inc., Dakota DesignStaff, Donovan Hatem LLP, the International Masonry Institute, Marc Truant & Associates and Tofias PC.

To register you, your clients, and other colleagues, call 800-544-1898 or use the registration form in the Build Boston program or on-line at www.buildboston.com — it is event #C76.

Earn free workshops as a Build Boston volunteer

Every year over 100 BSA members and friends earn free Build Boston workshops by donating a small amount of time as volunteers at Build Boston. These volunteers — and you can be one of them — help set up the BSA Resource Center and the BSA Design Gallery, monitor workshops and help staff the BSA information booth. In exchange for this time, volunteers attend workshops free of charge. There are still volunteer opportunities available for Build Boston this year on a first-come/first-served basis. For details, call/write BSA Volunteer Coordinator Meghan Warner at 617-951-1433x221/ mwarner@architects.org.

"Most beautiful" buildings on exhibit at the BSA

Since 1923, the BSA and the City of Boston have been administering the Harleston Parker Medal program annually to recognize, in the words of the original bequest that established the program, "the most beautiful" building or structure built in the Metropolitan District Commission area. To be eligible each year, nominated buildings or structures must have been completed within the prior 10 years.

The most recent recipient was the restoration and renovation of the Boston Public Library by Shepley Bulfinch Richardson and Abbott; in early June the BSA and the City of Boston hosted a public reception at the BPL to present this year's award. In addition, the BSA developed an exhibit of Medal-recipients dating to the beginning of the program. This extraordinary exhibit remained at the BPL throughout June and has been moved to The Architects Building this month.

The exhibit opens runs through **November 8**. The exhibit boards were assembled by the project architects and this exhibit includes over three dozen Medal-winners ranging from Coolidge and Shattuck's Boston Lying Hospital (the first recipient in 1923) to an extraordinary range of superb projects by dozens of Boston's finest design firms.

The exhibit gallery in The Architects Building is open on weekdays and all are welcome, there is no charge.

Women examine the power of professional mentoring

Next month on **December 3**, the BSA Women in Design Network focuses its monthly conversation on mentoring.

These informal monthly gatherings at the BSA — the Women in Design Network's "Conversations" — are free and open to all.

Reservations are required, however, to enable us to order adequate refreshments. To reserve your seat, call/write the BSA at bsa@architects.org/617-951-1433 x221 by 9:30 am on the day of the meeting. We begin at 6:00 pm.

Shirine Boulos AIA
Women in Design Network

Wang's work in China is focus of BSA gathering

Been Wang AIA of Architectural Resources Cambridge is the guest speaker this month on November 11 as the BSA International Committee focuses once again on the delights and challenges of working in China. Wang will be talking informally about how his firm has taken advantage of opportunities in the Far East.

Flag courtesy of www.theodora.com/flags used with permission

Everyone is welcome to join us for these free evenings of informal conversation and delightful refreshments as we explore opportunities for architects in a variety of nations around the world. Although there is no charge, RSVPs should be sent to bsa@architects.org/617-951-1433x221 by 9:30 am on the day of the event.

Estelle Jackson, Assoc. AIA, Chair
BSA International Committee

Unemployed? Join us

As the building industry copes with the uncertainties of this economy, lay-offs are affecting some BSA members and allies. To provide some assistance to members and industry allies who are seeking work, the BSA's Career Transition Network hosts monthly lunch gatherings designed to share information and advice that may be useful in the job search, in identifying new career paths, in acquiring new skills, and in otherwise taking the steps necessary to reach the next career goal.

There is no charge for these BSA lunches and all BSA members and our allies in all of the design and construction professions are welcome to join us for these informal conversations.

The next gathering is **December 3**, noon–2:00 pm. Although it's free, reservations are required so we order enough lunch. To reserve your seat, write/call bsa@architects.org/617-951-1433x221.

In the meantime, with questions or suggestions, call/write Richard Fitzgerald at the BSA at 617-951-1433x232/rfitzgerald@architects.org.

studioAPT wins local housing design competition

Julia Holmes McMorrough and John McMorrough of studioAPT in Cambridge have won the Competition for Modern Affordable Housing that concluded last month. Sponsored by the BSA's Young Professionals Advisory Council (YPAC) and by South Shore Habitat for Humanity, this ideas competition was an effort to elevate the design quality of affordable housing.

The competition jury included South Shore Habitat for Humanity leaders Carol Dennison and George Ferland, Cambridge architect/educator Victoria Beach AIA (who also chairs the BSA Ethics Forum), CBT principal Alfred Wojcieszowski AIA (who also chairs the BSA Housing Committee), *ArchitectureBoston* editor Elizabeth Padjen FAIA, YPAC chair Haril Pandya, Assoc. AIA (principal of Signature Design), and YPAC co-chair Jessica Zlotogura AIA of Tsoi/Kobus & Associates.

In addition to honoring studioAPT, the jurors also elected to honor the work submitted by Scott Henderson of Cambridge and Jack Ryan of Spencer. The award-winning designs are on view in The Architects Building lobby this month beginning on **November 21**.

In addition, at the next regular YPAC meeting at 6:30 pm, **November 27** at the BSA, we will examine and discuss all of the competition entries over beer and pizza and all young designers are encouraged to join us.

Kate Gilbert Miller
YPAC Liaison

Rotch Scholarship offers \$50,000 in competition prizes

If you are under 35 on December 31 of this year, you may be eligible to apply for the Rotch Travelling Scholarship, which includes a \$35,000 first prize and \$15,000 second prize to enable young professionals to travel the world.

Applications and other program details are available on the web at www.rotchscholarship.org. For more information or with questions, write/call Alexandra Lee at alee@architects.org 617-951-1433x225.

The codes battle: what next?

Just as the International Code Council (ICC) was ready to announce a spectacular accomplishment in September 1999 — the publication of a single family of coordinated codes for the nation — the National Fire Protection Association (NFPA) upset the applecart by announcing the publication of its own building code, NFPA 5000.

NFPA publishes standards, a life-safety code, and an electrical code, but this is the first time that the internationally respected fire-safety organization has entered the building code arena. This development was particularly upsetting to the AIA, which had fought hard to produce a single model code. Efforts to negotiate between the NFPA and the ICC have yet to suggest any likelihood of compromise...and in the remarkably short period of two years NFPA 5000 has become a reality. While remaining opposed to the publication of a separate building code, the AIA has participated in the development of NFPA 5000 and is monitoring its publication with great interest. In early September of this year, seven architects across the country with backgrounds in code writing, consulting, and enforcement convened for two days in Cincinnati to review and evaluate the new NFPA code. The group identified both strengths and weaknesses of NFPA 5000 and passed along the results of their evaluation to the AIA Codes and Standards Committee.

The publication of NFPA 5000 appears to be a fatal blow to the AIA's goal of a single building code in the U.S.; however, Dave Collins FAIA — who chaired the technical review in Cincinnati — reminded those present that, based on the experience of the consolidation of the three model code groups, nothing can be ruled out. One of the great variables in future developments will be the role of the AIA. If the AIA encourages members to actively oppose the adoption of NFPA 5000, the new code could face a long uphill battle and terms for consolidation with the International Building Code could eventually be reached. However, if NFPA uses its enormous capital and political resources effectively while other interests watch from the sidelines, the continued existence of two competing building codes seems guaranteed.

Having invested years in the cause of creating a single building code, what should the AIA do now? To voice your opinion, or for a copy of the Technical Committee report, write me at avw@rwsullivan.com...and join us at our monthly Codes Committee meetings — this month it is **November 20** at 8:30 am at the BSA.

Vernon Woodworth AIA, Chair
BSA Codes Committee

Vernon Woodworth AIA

Dialogue III:**What should awards value?**

Awards create our history. They codify what we feel is important in our profession. "Great design", broken down by building type, is typically the essence of architectural awards. Is there room to expand our definition of success by expanding our awards criteria?

The BSA Women in Design Network annually honors leaders in the design professions "who have designed their own lives in design, whose works exemplify the best of process and product, and who use their positions of achievement to give back to the world of design and to the community at large". The BSA's Young Professionals Advisory Council (YPAC), in collaboration with Habitat for Humanity, is sponsoring a competition for modern affordable housing (see p. 6), and Samuel Mockbee's unusual work has been honored for his innovative, beautiful designs and his ethical commitment to the rural poor of Alabama.

What are our criteria for outstanding design? Should praise go to innovative architecture, green architecture, affordability, use of materials, creativity, beauty, whimsy, relation to the land or to the city, or the expression in built form of our cultural moment? What values beyond design should be held up for commendation — community involvement, encouraging diversity in the field, excellence in teaching, smart planning alternatives to sprawl, preservation initiatives, or promoting the value of architecture in our society? Perhaps some of the hard work being done by volunteer BSA task forces should be highlighted, such as the task force on homelessness or the planning work done for Fan Pier or the Civic Initiative for a Livable New England. There are many important efforts to celebrate in Boston in addition to impressive design.

At one of the Women in Design Network evening "Conversations" last year, I was struck by urban design professor Ann Forsyth's statement that there seems to be a narrower definition of success in architecture than in related fields. She saw this as unhealthy and needlessly limiting for the profession. Perhaps it is time to broaden our vision of success and of how we create architectural history, one award at a time, to include excellence in design as well as leadership in other areas. So as Build Boston and the unveiling of this year's BSA awards approaches this month, we ask: **What should be valued and celebrated in our architectural awards?**

As usual, we invite you to respond with your thoughts to rachelmunn@earthlink.net.

*Rachel Munn AIA, Moderator
"Dialogue"*

**Fellowship funds available...
but applications decline**

The American Association of University Women's Educational Foundation offers a variety of professional fellowships for women pursuing degrees in architecture. The organization reports that applications for such fellowship support for those seeking architecture degrees have declined over the last few years and, as a result, the fellowship program for architecture students is at risk of being discontinued for lack of sufficient interest from young designers.

The financial support available is significant and includes, for example, \$5,000–\$12,000 for master's and first professional awards and grants and fellowships ranging from \$2,000 to \$50,000 for black female architecture scholars pursuing degrees.

For more information, write/call www.aauw.org/319-337-1716x143. Pass the word.

*Carol Burns AIA
BSA Executive Committee*

**Architects on the witness stand:
a mock trial**

On **November 14**, an architect stands trial as the Massachusetts Board of Registration of Architects sponsors a mock liability trial that reveals a series of issues that confront architects and other design professionals when embroiled as defendants in professional liability lawsuits. During this trial, we will focus on requests for a directed verdict, the statute of limitations, the statute of repose, premium cost *vs.* betterment, and other legal issues as they rise.

In this unique Build Boston event, architects, lawyers and government officials play the roles of plaintiff, defendant, attorneys, witnesses and judge. The jury, selected from those who register for this event, will deliberate and come to a decision during this three-hour trial.

This mock trial is open to all and we urge you to register now by calling 800-554-1898 or by using the registration form in the Build Boston program or line at www.buildboston.com — it is event #C08.

IDP structure and services are developed by new network

The BSA Committee on the Intern Development Program is a new service designed to facilitate participation in IDP by young designers and by architecture firms. The Committee includes State IDP Coordinator Kriss Pettersen AIA of The Stubbins Associates, Committee chair Jonathan M. Taylor, Assoc. AIA of Goody, Clancy & Associates and Ali Reza, Assoc. AIA of Payette Associates. Refer to the BSA Calendar (www.architects.org) for the committee meeting schedule; everyone interested is urged to join us at our meetings.

Role of the Committee: The Committee is the Massachusetts resource for students, interns, mentors and supervisors as well as accredited architecture schools and firms. The Intern Development Program is required to satisfy the training requirement for registration, as set forth by the Massachusetts Architectural Registration Board.

The Committee investigates and discusses issues pertaining to IDP and coordinates statewide distribution of knowledge of the program to interested parties. If you or your firm is interested in learning about IDP or wishes to schedule a firm presentation, please write or call any of the three committee members noted below.

Become an IDP Coordinator for your firm: The Committee urges all firms to take an active role in the IDP process. All mid-size to large firms are urged to designate an in-house liaison and register the name and email address of that person with the Committee.

Need a mentor? Want to become a mentor? The Committee is seeking to identify IDP participants seeking mentors and architects willing to volunteer as mentors.

Coming events: Join us for our regular Committee meetings on the first Monday of each month at the BSA at 5:30 pm. In addition, look for the Committee's information center at Build Boston, November 12–14.

Internet resources: Useful internet resources include the websites of the NAAB (www.naab.org), NCARB (www.ncarb.org/IDP), the national office of the AIA (www.aia.org), and the BSA (www.architects.org).

Contacts: Call or write Jonathan M. Taylor, Assoc. AIA (617-850-6565/jmtaylor@aia.com) with firm-liaison questions/information, IDP presentation requests, and questions about the Committee. Call or write Kriss Pettersen AIA (617-491-6450/kpetersen@tsa-arch.com) with questions regarding IDP requirements or serving as an IDP mentor or supervisor. Call or write Committee member Ali Reza, Assoc. AIA (617-895-1000/areza@payette.com) for details on committee meetings and related issues.

Young designers' mentoring network wants you

Issues such as defining mentorship, defining the structure a mentoring program might take, and determining how to administer such a program were examined during a recent BSA Fellows Committee workshop designed to assess the viability of a new BSA mentoring program. Subsequently, a diverse task force was formed by Fellows Committee facilitator Gary Graham FAIA to take the development of a mentoring program to the next step.

Jeff DeGregorio, Assoc. AIA of Payette Associates and Tom Robinson AIA of William Wilson Associated Architects co-chair the task force, which also includes Serena Bodner, Assoc. AIA representing the BSA's Young Professionals Advisory Council, Ray Lopolito representing the BSA's Young Architects Committee, Sara Sayner, Assoc. AIA, and Fellows Committee members Tony Tappé FAIA, Charles Tseckares FAIA, and Jane Weinzapfel FAIA along with Graham.

A series of programs, a new website and other activities are planned and readers who are interested in this opportunity are encouraged to write DeGregorio at jdegregorio@payette.com or Robinson at robinson@wilsonarch.com now. This group is particularly interested in your suggestions about the development of this program, your interest in volunteering as a mentor or joining the task force, and other suggestions that will enrich this opportunity.

We also encourage all young designers and prospective mentors to join us at our regular meetings on the first Monday of each month at noon for lunch at the BSA; there is no charge but please call/write the BSA at 617-951-1433x221/bsa@architects.org no later than 9:30 am on the day of the meeting so we order enough lunch.

Robert Brown IIDA, AIA, President

CESLU alert!

All AIA architects *must* include your 8-digit AIA membership number when registering for Build Boston to ensure timely AIA Continuing Education System credit for workshops attended at Build Boston. If you register for Build Boston workshops yourself — or someone else in your firm is registering for you — please be sure your 8-digit membership number is included on the registration form...or your continuing education credit (your Learning Units) will not be processed by the national continuing-education system until next year. If you are unsure of your membership number, write me at pmitchell@architects.org.

*Penny Mitchell, Quartermaster
Continuing Education System/BSA*

BSA offers 500 scholarships for Build Boston workshops

Once again this year, 500 professional-development scholarships are available for young architects, engineers, contractors, interior designers, landscape architects, facility managers, and other young building industry professionals interested in the professional-development, networking and career enrichment workshops at Build Boston in November. Each of these full-tuition scholarships covers the cost of a Build Boston 2002 workshop.

The scholarship program was established in 1999 to honor the memory of Tony Platt FAIA. Tony, who died in late 1998, conceived Build Boston in the early 1980s and remained its guiding visionary throughout the rest of his life. At the heart of Tony's vision was his commitment to broadening the intellectual and professional opportunities for everyone in the building industry...especially young professionals. For scholarship details, write/call bsa@architects.org 617-951-1433x221.

YDPDI 2003 is now accepting registrations

The fifth annual class in the BSA's Young Designers Professional Development Institute begins in March 2003. Registration is open now.

This is the program that brings young designers together for four hours each month for 12 months for training in basic office and practice skills.

This unique training opportunity has proved to be an effective means of helping young designers make the transition from school to work. Over the course of the year, the young designers enrolled in this program are taught basic writing skills, project management skills, presentation skills, finance and budgeting management, and a good deal more. For details on the class starting in March, write/call the BSA at 617-951-1433x221/bsa@architects.org.

Do you use VectorWorks?

There is a new BSA users group for everyone who is using or considering using VectorWorks. If you are interested in hearing more about this opportunity to share information, tips and conversation with other VectorWorks users, write/call me at 617-350-7420/tparks@baker-wohl.com.

Tom Parks AIA, Chair
VectorWorks Users Group

IT, HR, \$, PR & OM — not for architects

Every month, design-firm IT professionals, human resources professionals, financial managers, PR and marketing professionals and office managers gather independently at the BSA over lunch to share information and enrich their networks.

If you serve in any of these roles — or similar roles — and would like more information on how to benefit from these free lunches and great conversations, write/call Richard Fitzgerald at the BSA (rfitzgerald@architects.org 617-951-1433x232).

This month the IT group meets at noon on **November 18**; the HR group meets at noon on **November 26**, the financial management group meets at noon on **November 20**, the PR and marketing professionals network meets at 8:00 am on **December 3**, and the office managers/administrators gather this month at 6:00 pm on **November 21** for a special early-evening conversation. Join us — members and non-members are welcome. To reserve your lunch, call/write 617-951-1433x221/bsa@architects.org no later than 9:30 am on the day of the meeting.

Economic shifts may suggest insurance adjustments

A significant range of insurance plans related to business practices and to employee health and related coverage is offered by the national office of the AIA through the AIA Trust and this may be a good time to re-examine your firm insurance needs.

As a member of the AIA, you, your family, and your employees can take advantage of insurance plans designed specifically for architects. The AIA Trust also administers a legal information service by subscription, a members retirement plan, and other programs.

Among the options currently available are major medical and disability coverage, accident insurance, life insurance, business overhead insurance, the members retirement plan, professional liability insurance, business owners protection including workers' compensation and general liability insurance, and automobile insurance. For you and your family, available plans include major medical insurance, accident insurance, term life insurance, disability insurance, medicare supplement plans, long-term care, individual retirement accounts, automobile insurance, homeowners and home office insurance, and on-line investing coverage.

For more information on any of these AIA services, call 800-552-1093 or visit www.theaiatrust.com.

What are we getting for our dues?

This ChapterLetter feature each month highlights one useful program/service/activity our BSA dues help underwrite.

This month we draw special attention to the Career Transition Network, one of the BSA responses to the sluggish economy and the resulting lay-offs of design professionals and our allies. This network gathers monthly at the BSA to exchange information and tips on the job search, portfolio development, resume-writing, placement services and similar information of value to those currently unemployed or under-employed in the industry. See p. 5 of this issue for more on this network.

The continuing effort to enrich our networks is one more service we help underwrite with our dues.

Jlm Dunn, CPA,
Assoc. AIA
BSA Treasurer

AIA electronic documents are upgraded...EF 3.0 Plus

The new Electronic Format 3.0 Plus makes the increasingly popular AIA electronic documents easier to purchase, install and use...and makes available even more AIA documents in electronic format.

This new release was developed by the AIA specifically to repair many of the problems users encountered with the earlier EF 3.0 version. New features include faster printing, a less obtrusive "draft" watermark, improved formatting, user-friendly pop-up navigation aides, improved search/find/replace features, improved text-selection and strike-through options, and improved installation instructions. In addition, a dozen documents — including A114 and many G-series documents — previously available only in hard-copy have been added to the software package.

If you are already using EF 3.0, you may download this free upgrade at www.aia.org. If you have not yet installed any AIA electronic format software, free 3.0 Plus CDs to get you started are available from the BSA by writing/calling bsa@architects.org/617-951-1433x221. The BSA, of course, also stocks all hard-copy AIA documents, which can be ordered by writing/calling the same number or visiting the BSA web-site at www.architects.org (click on 'BSA store').

For more information, call/write me at 617-951-1433x221/mwarner@architects.org.

Meghan Warner, AIA Documents Manager

Wise transition is possible

"Five years into the leadership transition currently unfolding at Tsoi/Kobus & Associates [in Cambridge], this 19-year-old, 125-person architecture firm is successfully surviving the move, as indicated by such accolades as being named one of the Best-Managed Design Firms by Architectural Record in 1997, the 2000 Business of the Year by the Greater Boston Chamber of Commerce and by ZweigWhite Hot Firm 2002."

That is the first paragraph in a recent report on the successful leadership transition and ownership transfer process Tsoi/Kobus is undergoing. The report is in the 9/02 issue of *Principal's Report*, the national practice newsletter. For a copy of this brief article (available only by mail), members in Massachusetts should send requests with a 37¢ SASE to Leadership/RF, BSA, 52 Broad St., Boston 02109; other readers should include a \$15 handling fee payable to the BSA along with the 37¢ SASE. (For a subscription to *Principal's Report*, call 212-244-0360.)

Architect wins copyright case

In late February, a Massachusetts jury awarded an architect over \$1.5 million in damages in a significant lawsuit filed by the architect accusing a developer of copyright infringement, unfair and deceptive trade practices and related violations.

The architect provided design services, including drawings, and the architect and the developer were working under the terms of a signed AIA B141 Owner/Architect agreement. Before the work began, the developer's bank failed and the project came to a halt. The architect was never paid, although the architect proceeded to pay all of his consultants including another architecture firm. A few years later the project was resuscitated and the developer proceeded although no one ever asked the original architect for permission to use his drawings.

The court and the jury addressed a variety of issues including the nature of "original work", the copyright symbol, copyright registration, the notion of "publication" as it relates to copyright protection, ownership and authorship and other copyright-related issues. One of the architect's attorneys was BSA member **Chuck Heuer Esq., FAIA**, an architect and an attorney. Heuer has summarized the details of the case in his firm's newsletter. To obtain a copy, write/call Heuer at heuerlaw@aol.com/617-628-5290.

The summary in Heuer's newsletter is also included in a comprehensive collection of articles and other information on architectural copyright issues available in the BSA Books & Gifts catalogue at www.architects.org, click on 'BSA store'; it is item #90.

Chuck Heuer Esq., FAIA

Architect wins another case

A jury awarded \$5.2 million to an architecture firm in a recent copyright case. In this Virginia case, a Texas architecture firm successfully claimed that a client had obtained a "single use" license for the copyrighted architectural plans but had continued to use the same design to build additional houses without permission.

This case was described in a Hartford Business Journal article a few months ago by Hartford attorneys with McCormick, Paulding & Huber. For a copy of the article, which is part of a larger package of reprints and other material on architecture copyright law, visit www.architects.org, click on 'BSA store'; the collection is item #90 in the BSA Books & Gifts Catalogue.

Do you want work? visibility?

The BSA website (www.architects.org) includes interactive firm listings. The new online listing format is both an excellent resource for clients and others seeking information about BSA firms and an interactive Internet tool. Easy to edit by firm administrators, this new online directory takes advantage of the fluid nature of Internet publishing to create a resource that is constantly changing and current.

AIA firms and sole practitioners in Massachusetts are encouraged to keep their profiles current through the easy update form online. AIA firm principals were recently sent information on how to update firm listings. If you are not sure of the process or have misplaced your log-in information, send your firm name to BSA membership director Penny Mitchell at pmitchell@architects.org and she will come to the rescue.

In addition to the AIA firm directory, the new website includes a directory of Corporate Affiliate members, a directory of firms that do residential and small-commercial design, a BSA membership directory and a directory of AIA chapters.

Nancy Jenner, Deputy Director

National ad campaign is on the air and in the magazines

"Get architects into the mix at the conceptual stage of the project; architects add value to homes, schools, hospitals, government buildings, commercial development and communities in general; AIA membership is a crucial credential."

These are among the messages that the national AIA radio and magazine advertising campaign began taking to the public in the U.S. in mid-September.

Aimed at decision-makers in carefully targeted market segments, the campaign seeks to motivate clients to engage AIA members early in the planning process well before conceptual design and lasting through building occupancy and operation. The core message developed by the national AIA advertising agency is this: A relationship with an AIA-member architect from the very beginning of any planning or design discussion will help homeowners and business owners realize their objectives in ways they might never have expected.

The primary vehicles for the ad campaign are the national radio networks that provide national and business news to local radio stations across the country. Familiar examples include CNN Radio News, Wall Street Journal Reports, Market Watch, Charles Osgood, and the regular hourly network news pro-

grams. Through the end of 2003, the airwaves will enjoy 700–800 network-delivered ads of 30 or 60 seconds each channeled to 7,000–8,000 radio stations in the nation.

The voice of the AIA for this radio campaign is actress Allison Janney, known to viewers of "The West Wing" as press secretary C.J. Cregg.

Supplementing the radio ad campaign are magazine ads running from now until the end of next year. Concentrating on market-specific professional, institutional and trade magazines — and tied conceptually to the radio ads — the ads appear in publications such as *Governing Magazine*, *U.S. Mayor*, *Modern Healthcare*, *Architectural Record*, *Commercial Property News*, *National Real Estate Investor*, *Urban Land*, *AS&U*, *American School Board Journal*, *Multi-Family Trends*, *Builder*, and *Professional Builder*.

Each market segment has its own ad with copy and images drawn from the working context of a specific target market.

Arthur Cohen AIA

BSA Commissioner of Communications & PR

Get a buzz

The November/December issue of *ArchitectureBoston* examines some of the causes and effects of our profession's increasing dependence on hype to communicate ideas, win commissions and promote stars.

Hype and its uses are explored within the current commercial and cultural landscape by our writers and contributors in this special "Hype" issue of *ArchitectureBoston*. Can (or should)

architecture be immune to hype while serving the common good? What should architecture schools be teaching the next generation of professionals about using hype? Are architects promoting themselves enough? These and many other interesting questions are raised by our contributors who include John King writing on the hype of the new Modernism, George Bachrach on architects and politics, and Deborah Dietsch on the hyping of architecture. Richard Saul Wurman FAIA, founder of the TED (Technology/Entertainment/ Design) conferences, talks with Jeff Stein AIA.

ArchitectureBoston is published bimonthly. For subscription and editorial submission information, write/call Janine Soper at jsoper@architects.org/617-951-1433x240. For advertising information, write/call Brian Keefe at bkeefe@architects.org/800-996-3863.

Mark Ruckman, Editorial Assistant

ArchitectureBoston

ArchitectureBoston

Marketing guide is on-line

The BSA's seven-year-old Guide to Consultants, Contractors, and Manufacturers is a comprehensive resource and guide to services and products for everyone in the building industry.

The Guide, which is an on-line directory at www.architects.org/guide, is printed once a year in the January awards issue of *ArchitectureBoston*, the BSA's award-winning bimonthly magazine.

ArchitectureBoston is distributed to over 17,000 architects, allies in the building industry and others with an interest in design and construction. The on-line directory is currently visited by an average of 4,000 unique users every month.

New features of the on-line directory include searchable categories and an automated renewal and update process. With this new technology, advertisers can now edit your firm's 50-word description of services or contact information, review your listing expiration date, renew a listing, or post a new listing at any time...all within the BSA's secure website.

Contractors, consultants and manufacturers and their representatives in the building industry who wish to be included in the 2003 edition of the Guide should visit www.architects.org today. All advertisers who purchased an on-line listing for a full year by **October 1** automatically will be included in the January listing in *ArchitectureBoston*.

If you missed the October 1 this year deadline or for more information, visit www.architects.org/guide or write/call me at kmiller@architects.org 617-951-1433x234.

Kate Gilbert Miller, Program Manager

Professional development calendar is on-line

The BSA website (www.architects.org) has a special page and a special calendar dedicated to professional development opportunities. The web page and calendar include information about continuing-education programs offered by the BSA and by other education providers. Current listings include everything from BSA committee-sponsored meetings to conferences at Salve Regina University titled "From Shingles to Columns: McKim, Mead & White and the Transformation of America."

If you are a continuing education provider and would like to list your programs on this site, visit the 'Advertise with the BSA page' or write/call Kate Gilbert Miller at kmiller@architects.org or 617-951-1433x234.

Do you want small projects?

The deadline for the 2003 edition of the "Residential and Small Commercial Project Handbook" is **December 18** — don't miss the chance to become part of this popular marketing vehicle.

The Handbook enables architects to reach homeowners and business owners as they begin to plan renovations, additions or new construction. It's a marketing tool for architects as well as an educational guide that illuminates the value of working with an AIA architect. (Visit www.architects.org and click on "Working with an Architect" for an on-line version of the 2002 edition.)

The "Working with an Architect" section of the Handbook is a valuable resource that helps clients understand the role of the architect and the value of the architect's effort. Another section — "How to be a Good Client" — seeks to educate clients on their roles. Handbook users also receive a budget development worksheet to help them estimate costs and fees as well as a summary of steps in the design and construction process so they better understand the adventure. Most importantly the Handbook includes a list of architects who specialize in residential and small commercial projects — contact information as well as firm profiles are included.

The Handbook is promoted and distributed through a number of vehicles. It is included in its entirety on the BSA website (www.architects.org); it is advertised throughout the year in *Cape Cod Life*, *The Boston Globe* "Home" section, and various other publications. Hundreds of journalists receive the news release on the Handbook's availability; it is distributed at Home Shows in the area; and scores of people call or e-mail the BSA monthly to request it.

All architects who are AIA members in Massachusetts and who want residential and small commercial projects (defined as those with construction costs up to \$1 million) are invited to use this inexpensive, year-round marketing tool. To receive your listing form, call/write Kate Gilbert Miller at 617-951-1433x234 or kmiller@architects.org.

'Brand' yourself on Channel 5

"This Amazing House!" is the title of a new WCVB-TV/Channel 5 program that profiles home design. The television station is seeking BSA members with expertise in residential design, interior design, lighting design, landscape design, kitchen and bathroom design and other disciplines. For more information, call/write Roberto Mighty at 617-965-7022/ rmighty@celestialmedia.com.

BSA members get credit union

All BSA members, all employees of BSA member firms, and all family members of BSA members and firms now have access to a credit union through the BSA.

In early October, the BSA formally established a relationship with the Tremont Credit Union (TCU) to provide BSA members and their families with banking and other financial benefits of particular value in challenging economic times. Since 1952, Tremont has provided high-quality financial services to schools, museums, businesses and associations in our area. Tremont services range from inexpensive checking accounts and Christmas Club accounts to new and used auto loans and mortgages.

Tremont's rates are competitive because the organization is a member-owned, not-for-profit institution that exists solely to serve its members — which now include BSA members. Family members are eligible to join the credit union and may open their own accounts whether or not BSA members or employees choose to join. "Once a member, always a member" is TCU's policy, which allows members who change jobs to continue to use Tremont as long as they wish.

In addition to traditional bank accounts, Tremont also offers financial planning, 529 College Savings plans, scholarships, and a good deal more. Members of the BSA already have begun to receive information about TCU and more information is available at www.architects.org, click on 'Membership'.

The BSA Board of Directors wishes to offer special gratitude to the BSA Finance Committee led by Jim Dunn, Assoc. AIA of Goody, Clancy & Associates for taking the initiative that led us to this point. Of particular significance and value has been the extensive and thoughtful research provided by Finance Committee members Deb Mahoney of Koetter, Kim & Associates and Tim Grobleski of Symmes Maini & McKee; it was their recommendation that ultimately led to this alliance with TCU.

We believe this is a valuable new service for BSA members and their families and we look forward to your comments on it and how we might improve it as time goes by.

Robert Brown, IIDA, AIA, President

Buckley and Ennis inaugurate new membership category

Interior designer Jean Buckley of Buckley & Associates and management consultant Michael Ennis of Management Search Inc. recently became the first two professionals to take advantage of the new Professional Affiliate membership category in the BSA.

For many years, individuals in professions other than architecture have been active and valuable participants in BSA committee work, programming and other activities. Now all such professionals have access to a professional level of BSA membership.

Since Buckley and Ennis first took advantage of this new membership opportunity a few months ago, a range of colleagues including planners, lighting designers, engineers, manufacturers' representatives, financial-management wizards, construction specifiers, marketing professionals, preservation professionals, landscape architects and others have also taken advantage of this opportunity. (See p. 13 for this month's listing of new Professional Affiliate members.)

Anyone who is not an architect or intern architect may take advantage of this professional membership in the BSA. For details, call/write the BSA at 617-951-1433x221/bsa@architects.org.

*Angela Watson, Assoc. AIA, Chair
BSA Membership Committee*

Hoyt joins BSA staff

Lynnfield's favorite financial wizard, **John Hoyt**, joined the BSA staff during the summer as the new controller responsible for all BSA financial operations. Hoyt came to the BSA from Price Waterhouse Coopers and over the past 20 years has also served as accounting manager for the MarketMAX software company, administrative director for the CPA firm of Moody, Cavanaugh & Co. and controller for KPMG Peat Marwick's Boston Business Unit.

Hoyt arrives at the BSA as the extent of BSA financial operations expands to accommodate the ever-growing variety of member services, especially as we take advantage of the new opportunities offered by the BSA's award-winning website.

Hoyt may be reached at jhoyt@architects.org 617-951-1433x235.

Nancy Jenner, Deputy Director

John Hoyt

"Study of the Orders" returns

The classic 1906 Frank Chouteau Brown book — *Study of the Orders* — has been republished and is available from the BSA in both soft- and hardcover editions and as a CD.

Co-authored by Frank A Bourne and Herman Victor Von Holst this unique, 406-page volume was prepared initially a century ago for the American School of Correspondence in Chicago to provide architecture students with "a clear, concise description of the Classic Orders and the system of proportions to which the Orders were reduced by the Renaissance architects — the system still employed in the best architectural offices today."

With hundreds of illustrations/drawings, the book is divided into sections on the Renaissance Roman Orders, the Classic Greek Orders, and the Classic Roman Orders. An extensive glossary is included.

This publication is the first in a series of publications planned by The Tabularium Project, a private effort by Hancock Design in Massachusetts to return rare texts on architecture, design, color, symbolism, art, philosophy, religion and literature to the general public.

To order this book or CD, visit www.architects.org, click on 'BSA store'; it is item #339 (hardcover), #339S (softcover) or #339C (CD)...or write/call the BSA at bsa@architects.org/617-951-1433x221.

Cuba and Japan are BSA tour destinations

The BSA's continuing program of international architecture tours takes members and friends to Japan and Cuba next month. (The image below is a taste of the Cuba we visit.) For details on these and our 2003 tours, call/write the BSA's tour designer/administrator, Deborah Castellucci of Architects On Tour, at 888-802-8303/info@architectsontour.com.

New titles in the "BSA Store"

The BSA's Books & Gifts catalogue on the BSA web-site includes over 100 books and related publications focusing on a broad range of design and practice issues. This month we have added these new titles to the catalogue:

- ▲ **Out on Your Own/The Guide to Building a Successful A/E/C Firm** by Frank A. Stasiowski FAIA/PSMJ Resources, 2002 (why do you want to start your own firm, do you have what it takes, your dream and your vision, when to launch and where, thinking strategically, the planning process, developing an effective marketing plan, human resources planning, finances, profitability, project delivery, how to use consultants, how to get paid and limiting your liability are among the issues addressed in this comprehensive guide to starting your own design firm; 471 pp.); item #334
- ▲ **Green Building Guidelines** publ. by the Sustainable Buildings Industry Council and the U.S. Department of Energy (written by builders for builders with many illustrations, case studies and rules of thumb, this set of residential design guidelines focuses on community and site planning, energy efficiency, efficient water use, indoor environmental quality, materials selection, and operations and maintenance and also provides cost-effective strategies; 135 pp.); item #335
- ▲ **School Treasures/Architecture of Historic Boston Schools** by Doris Cole FAIA and photos by Nick Wheeler/Font & Center Press, 2002 (Cole's text and Wheeler's photographs provide an extraordinary documentation of the architectural history of Boston's schools; the book includes a CD containing more than 100 images and descriptive captions of these architectural treasures dating from 1892 through 2001); item #336
- ▲ **The Graphic Standards Guide to Architectural Finishes: Using MASTERSPEC to Evaluate, Select and Specify Materials** publ. by ARCON and the AIA (this comprehensive visual resource combines hundreds of illustrations from *Architectural Graphic Standards* with corresponding building material performance and specification information from MASTERSPEC for use during schematic and design-development phases of architectural projects and as an aid to product-selection and specification with information on affordability, environmental impact, durability, fire-resistance and aesthetics; 288 pp.) item #337
- ▲ **Why Architecture Matters/Lessons from Chicago** by Blair Kamin/University of Chicago Press, 2001 (the Pulitzer Prize-winning *Chicago Tribune* critic explores architecture in the 1990s from skyscrapers to immigrant neighborhoods, troubled public housing projects, and sprawling suburbs in this discussion of "the evolving metropolis", the art of architecture, architecture as a social art, and "democratic vistas"; 386 pp.); item #338

All of these resources may be ordered by downloading the order form at www.architects.org (click on 'BSA Store') or write/call bsa@architects.org/617-951-1433x221.

Diversity in the profession is the focus of a new national AIA web page that is replete with information about diversity and the architecture profession. Included on the web page is information on how to join the Diversity-talk list-serve, an ongoing dialogue about diversity in the profession...visit www.aia.org/pia/gateway/pia_home_pages/diversity.asp.

"New Patterns for Smart Growth" is the second annual national conference on smart growth in New Orleans at the end of January. The BSA is among the co-sponsors of this unique event organized by the Local Government Commission and Penn State. For conference information or to register, visit www.outreach.psu.edu/cc/smartgrowth or write mkelso@lgc.org or muv8@outreach.psu.edu.

"The Massachusetts Conference on Housing" is November 22 at the Worcester Centrum Center. It is sponsored by the Massachusetts Department of Housing and Community Development. For details, call 617-727-7765.

Varying methods of compensation, when to compromise, recognizing red flags, and understanding body language are among the issues addressed in a recent issue of "Negotiating Strategies", the monthly newsletter published by Michael Strogoff. The issues noted here dominated the recent September issue. For copies and/or subscriptions to this electronic newsletter, write newsletter@strogoffconsulting.com.

Scolly Square was revived briefly on August 27 when architect/educator Gretchen Schneider, Assoc. AIA led a group of Bostonians and students in recreating the streets and buildings of old Scolly Square on City Hall Plaza...in chalk — in fact, 14,806 linear feet of chalk lines over 8.8 acres of brick. Sponsored by the BSA, the Boston Foundation for Architecture, the City of Boston and many others with a sense of history and a sense of humor, this extraordinary event was a wonderful celebration of the past that helped us understand the present and inform our future. For more information, write Schneider at schneiderstudio@yahoo.com.

CFA offers new-work registry. Consulting For Architects (CFA), the Boston/New York/Chicago placement and training service, has developed a web-based information registry for design and construction firms and the Lower Manhattan Development Corporation (LMDC), which is overseeing the rebuilding of the World Trade Center site. Firms interested in responding to LMDC's RFPs and other design opportunities are invited to register and submit qualifications on CFA's site. The LMDC may then view this site and select firms that meet LMDC needs and standards. To register your firm, go to www.cons4arch.com. For more information, call CFA at 617-261-0090.

Can you keep design costs on track? A

recent article in the national practice newsletter, Design Firm Management & Administration Report, includes an article on "How to Keep Project Design Costs on Track" that offers two dozen suggestions on how to manage costs in the conceptual/schematic design phase, the design/development phase, and the construction/documents phase. For a copy of this brief article (available only by mail), members in Massachusetts should send requests with a 37¢ SASE to Design Costs/RF, BSA, 52 Broad St., Boston 02109; non-members should include a \$15 handling fee payable to the BSA along with the 37¢ SASE. (For a subscription to Design Firm Management & Administration Report, call 212-244-0360.)

Fee-bidding for design professionals is a major mistake.

That is the position taken by consultant John Bachner in a booklet titled "Purchasing the Services of Engineers, Architects, and Environmental Professionals." As an advocate of qualifications-based selection (QBS), Bachner argues forcefully against fee-bidding, which he describes as a disservice to the client as well as the design professional. The booklet asks and answers 21 of the most common questions about these issues, questions such as: "Who in his right mind would select a design firm without considering its fee?" For ordering information on this booklet, which you probably would want to share with your clients, call 301-589-9121.

All PIAs are now free. There are some two dozen national PIAs and beginning in January all AIA members will enjoy free access to all PIAs; the former \$50 fee to join each PIA has been eliminated. For details on all of the PIAs, visit www.aia.org.

AIA Documents list is revised

The most current AIA Documents list and order form — including current 2002 prices — is available to download from the BSA website (www.architects.org, click on "Quick-links") or write/call bsa@architects.org/617-951-1433x221 to request your free copy or mail/fax your name and address and request for the list and order form to the BSA, 52 Broad St., Boston 02109/fax 617-951-0845.

"This stock market situation—what are the military options?"

Justine Liff, Hon. BSA

Justine Liff, for six years Boston's parks commissioner, died of ovarian cancer in September at 55. As the City of Boston honored Liff at her death by flying its flags at half-mast, Boston mayor Tom Menino and countless civic leaders and elected officials throughout the city praised the uncommon commitment and effectiveness Liff brought to her long tenure in the Parks Department. In a report on her contributions to the city, *The Boston Globe's* Bob Turner noted such Liff successes as the renovation of the Frog Pond and skating rink on Boston Common, the restoration of Olmsted's Emerald Necklace, the new clubhouse of Franklin Park, the professional-grade facilities in Sartori Stadium in East Boston, Millennium Park in West Roxbury, the dredging and restoration of the Muddy River on the Boston/Brookline border, the planting of 75,000 trees along city streets and her commitment to maintenance of the city's park system. Turner noted that Boston's park system was one of only three in the U.S. to receive the National Trust for Public Land/Urban Land Institute four-star rating. Liff was honored by many organizations in the city and most recently was honored by the BSA for her "uncommon contributions to the enrichment of the built environment and the communities that shape it". Liff is survived by her husband and three daughters.

Justine Liff, Hon. BSA

joined the firm, which also recently moved its offices into the renovated Easton post-office at 585 Washington Street...**Nancy Sullivan CPSM, Affil. entrance, library and classroom wing for the Lawrence School in Brookline, a new fine arts and technology center for Northern Essex Community College in Haverhill, expansion and improvements of athletic facilities at Malden Catholic High School, an MRI Suite and a new linear accelerator for Dana-Farber, a parking garage at Portsmouth Naval Shipyard, family housing renovations at the Westover Air Reserve Base, the Center for HIV Intervention and Prevention at the University of Connecticut, the administration building for the Saratoga Springs Naval Support Unit, two classroom renovations at MIT, and food-service facilities for Julie's Kitchen, Harvard's Adams House, the Shriver Job Corps Center, and Emerson College...**The Architectural Team's** recent and current work includes the Walter Baker Chocolate Lofts in Dorchester Lower Mills, The Metropolitan mixed-use development in Boston's Chinatown, the Whitney Place assisted-living facility in Northborough and the adjacent Beaumont Rehabilitation and Skilled Nursing Center renovation/expansion, and the Costello

James M. Minifie AIA

James MacDonald "Don" Minifie AIA died in August at 68. Fondly remembered for his dry wit, the photographs he took at parties, and the red handkerchief always present in his breast pocket, Minifie had recently developed a serious interest in acting. Born outside Paris in 1934, Minifie and his mother moved to the U.S. during WW II. Minifie served as an army officer in Panama before returning to Harvard GSD, from which he graduated in 1962. He opened his own office to specialize in single-family and multi-family housing. His strong sense of civic purpose was reflected in his activism as a member of the BSA Urban Design Committee over many years. Of late he had become an active world traveler with AIA Europe and, while at home a "wonderfully rolling baritone" at King's Chapel in Boston. Don is survived by his twin daughters and, as his daughters note, "a Llanca Flamingia that has not run in 25 years". Memorial donations may be sent to the Office of Development, Boston Medical Center, One Medical Center Place, Boston 02118 in memory of James M. Minifie to benefit nursing care.

John Prosser

John Paul Prosser, a building code consultant active for many years on the BSA Codes Committee, died in September at 63. He earned his MBA at BU and in 1981 founded JP Prosser & Associates, which was retained to work on such Boston projects as Rows Wharf, Mass. General, and the Hynes Convention Center. Most recently, John was active on the State's Chapter 34 Committee focusing on the next edition of the Massachusetts state building code. He is survived by five children and ten grandchildren.

Homes condos in South Boston...

Gorman Richardson Architects has completed design of The Villages at Quail Run in Hudson (an over-55 housing development) and Hidden Acres condos in Rhode Island for which the firm also provided a full identity package...**Dinisco Design Partnership** has been selected by the Town of Danvers to transform the Holten Richmond Building into a middle-school facility...**Wilson Butler Lodge** has completed design of the Virginia Performing Arts Foundation's new and renovated arts facilities, a collaboration with the Richmond firms of Glave & Holmes Associates and BAM Architects...**Tappé Associates** has completed design of the Roosevelt Elementary School in Melrose and the new 24-hour study lounge at MIT's Hayden Library...**Schwartz/Silver Architects** has completed design of the Charles Chu Asian Art Reading Room at Connecticut College...**SMMA/Symmes Maini & McKee's** recent and current work includes the expansion of Bose's R&D facilities in Framingham, the new ice rink facility at the University of Rhode Island, six branch offices for Sovereign Bank in Massachusetts, and a new medical pavilion at Falmouth Hospital...**The Architect's Studio's** recent and current work includes facilities for the Boys & Girls Club of Taunton, the renovation of the Supreme Shopping Center in Weymouth, and the transformation of the entrance to Lantana House.

Financial Center, tenant build-out for PFPC in Rhode Island, sitework for Raytheon in Tewksbury, waste transfer facility work for Champion City Recovery in Brockton, office relocations for Infosys Technologies in Braintree, office renovations for MGH's Clinic Lab, and HVAC work for Harvard's Doyle Lab...**Forest City Commercial Group** and Millennium Pharmaceuticals have completed the new biotech facility at University Park at MIT with Elkus/Manfredi Architects...**Advanced Signing** recently collaborated with Baldwin Design on an interior and exterior design/build project for the new Olin College of Engineering and has completed an exterior campus program for Hampshire College with Jon Roll & Associates...**Suffolk Construction Co.**'s current work includes student housing at Worcester State College with ADD Inc, additions and renovations for Lyme Properties in Cambridge with Tsoi/Kobus, the Baypointe nursing and rehabilitation center in Brockton with David Dunlap Associates, the MRI Center at Milton Hospital with Rothman Partners, the Naval Ambulatory Care Center in Connecticut with Sherlock, Smith and Adams, and the conversion/renovations of 130 Brookline Street in Cambridge with Tsoi/Kobus...**Columbia Construction Co.**'s recent and current work includes renovations of Millipore's Bedford facility and an addition at its Burlington Facility with Levi Wong and Associates, The Hammonds condos in Brookline with The Architectural Team, St. John's Prep academic resource center with the Mount Vernon Group, the Kendall Barn medical facility in Cambridge with Campbell Tackett, Novell's Corporate HQ in Waltham with Gensler, ICF Consulting's offices in Lexington with Visnick and Caulfield, the Mass. Technology Collaborative's facility in Westborough with ADD Inc, the GSI Shipping and Falcon Freight in Boston with Visnick & Caulfield, the GSA facility in Boston with Fuller Associates, and the Worcester Ambulatory Care Center with David Dunlap Associates; business development manager Dan Branon and project manager Jon Kelly have joined the company...**Consigli Construction Co.**'s recent and current work includes renovations of the Nathan Hale House at Phillips Academy with Bruner/Cott, renovations of Shea-Durgin Hall at Bridgewater State College with Pfeuffer Richardson, renovations of Budleigh Hall at Nichols College, renovations of several facilities at Brown with Signer Harris,

structural repairs to McGuirk Stadium and Tobin Hall at the University of Massachusetts/Amherst, a new campus center at the University of Massachusetts/Lowell with Architectural Resources Cambridge, a joint-venture with AMEC Construction Management for the patient-care addition and renovation program at the Milford Whitinsville Regional Hospital with Steffian Bradley Associates...**Lee Kennedy Co.** is building Atwater Commons, a residential complex at Middlebury College, designed by Kieran Timberlake Associates and is doing the fit-up for the Beal Cos. at 150 Federal Street in Boston with Visnick & Caulfield; Paul Pennie (government liaison/quality control), Lois Kelley (senior project manager), and Steve Dionne (superintendent) have joined the company...**Copley Wolff Design Group's** recent and current work includes the Proton Beam Therapy Center at the University of Florida/Jacksonville (and a similar facility in Houston) with Tsoi/Kobus & Associates and site improvements at Faulkner Hospital in Boston with McManus Peterman Architects...**Elaine Construction Co.** is providing CM services to Towers Perrin for interior renovations in the Back Bay at 111 Huntington Ave with Elkus/Manfredi, the expansion of Intex's offices in Needham with Bergmeyer Associates, new offices for Emed in Burlington with Morris Architects, and the Sears Lab in Danvers with David Saltzman Architects...**Geller Associates'** recent and current work includes a new playground at the Park School in Brookline, projects at the Shalom Village assisted-living facility in Rhode Island, new athletic fields at Clark University in Worcester, a masterplan for JCC of the North Shore's Camp Simcah in Middleton, and redevelopment of the south campus of Endicott College in Beverly with JSA Architects...**The Society for Marketing Professional Services/Boston Chapter** reports the election of the following officers: Phil Valence of **Blackridge Ltd.** (president), Lori Chicoyne of **Judith Nitsch Engineering** (VP/president-elect), Crystale Dion of **Edwards & Kelcey** (secretary) and Marc Pelletier of **Bond Bros.** (treasurer)...**Richard White Sons'** recent work includes Wellesley College's Margaret Clapp Library renovations with SBRA, BC's Higgins Green site-development project with **Carol R. Johnson Associates**, and the new science wing at Ursuline Academy with Keefe Associates...**Wise Construction's** recent and current work

includes build-out of office space for Iron Mountain, Summer Labs, and lobby renovations for REIT Management — all in Boston with Visnick & Caulfield, office renovations for Zero Stage Capital in Cambridge with Bryer Architects, office renovations for Lion Bioscience in Cambridge with Margolis + Fishman, office renovations for PCI in Boston, the DuLac lab renovation for Harvard with Hecht Scherding, numerous renovations for TransAtlantic Management in Cambridge, and renovations at Fresh Pond Place in Cambridge with CCA...**Acenitech** reports that Jonathan Kemp Ph.D., Mark Storm, and Benjamin Markham have joined the firm, which has recently expanded its information technology and telecommunications services led by Russell Morrison...**Carol R. Johnson Associates'** recent and current work includes site design for the restoration of the historically significant Labrot and Graham Distillery in Kentucky (a project honored recently by the Kentucky chapter of ASLA), site design with Bergmeyer Associates for a new dorm at Salem State College and with ADD Inc on the site design for a new dorm at Worcester State College, site design with BH+A Architects for a new apartment complex in Danvers, and a campus landscape masterplan for the University of Hartford...**William A. Berry & Son** recently contributed \$20,000 from The Berry Fund and thus became a major sponsor of a coast-to-coast bicycle ride by the Stobbs Family of Atlanta to benefit The Leukemia & Lymphoma Society; the company also provided the underwriting for the family's televised arrival in Boston...**Siena Construction Corp.**'s recent and current work includes the MicroCHIPS facility in Bedford, office and lab renovations for Centagentic in Cambridge, renovations for Bistech's pilot lab in Woburn (all three projects with Olson Lewis & Dioli) and several renovations at 3Com in Marlborough and Repligen Corp. in Waltham.

BSA President Robert Brown IIDA, AIA and the BSA Board of Directors are privileged to welcome a new BSA Corporate Affiliate member: **Damianos Photography** (architecture/interior/construction photography). For details on Corporate Affiliate membership for firms, call/write 617-951-1433x228/pmitchell@architects.org.

Shawmut Design and Construction has announced that Margaret Neil (above) has been promoted to VP of client development and Kerry Schaub (below) has been named manager of client development for the corporate group...photos by Bethany Versoy

Bond Brothers reports that Edward A. Bond Jr. (above) has been elected to the 2002 Board of Examiners for the national Malcolm Baldrige National Quality Award

Linbeck/Kennedy & Rossi has announced that Carl Larson (above) has joined the company as senior project manager for the New Haven office

A.J. Martini General Contractors has announced the appointment of Mary Ann Williams (left) as VP/Director of Business Development and Biagio DiTullio (right) as project executive and manager of the institutional division; the company also reports that Ron Rich has assumed the role of VP/Director of Client Services...photos by Lincoln Studios

Do you know Howard West?

M. Howard West, an architect in Chicago, died April 11, 1989. His father, Myron H. West, was a landscape architect in Chicago, who founded American Park Builders [early in the 20th century]...I am trying to identify the grandchildren, who would be the children of M. Howard West...[If you can provide any assistance in locating the grandchildren, please write me at lilliepetit@cox.net.]...Thank you.

Lillie Petit Gallagher, Baton Rouge LA

Supporting the BAC

I am writing to invite you to support the BAC Annual Fund...The support we receive from our colleagues in the design community and from those friends interested in issues of design and education is crucial as we seek to continue our tradition of offering an affordable and accessible design education...

The BAC opened the doors to academic year 2002–2003 with a record number of students. Nearly 700 students are now enrolled in our Bachelor of Architecture, Bachelor of Interior Design, Master of Interior Design, and Master of Architecture degree programs.

Whether a student is receiving a bachelor's degree, transitioning careers and entering our master's degree program, or supplementing his/her professional skills with one of our certificate programs, the BAC remains a dynamic institution of design education. We look forward to welcoming you as a supporter of our work!

Ted Landsmark, President
Boston Architectural Center

Accessible rental home is sought

I am seeking to rent a home for a few years in the Boston area that meets my special needs related to chemical sensitivities. I am hoping the architectural community may be able to help because my need is extreme and I have exhausted all the conventional avenues such as real estate agencies to no effect. I would like to rent a simple home constructed of natural materials with at least two bedrooms, an attached garage, electric heat/air conditioning, and without wall-to-wall carpeting. A bedroom and bath on the main floor — or an elevator — are needed for handicapped accessibility. If you can help me, please call 617-521-6350. Thank you for considering this request for assistance.

Marilyn Brachman Hoffman, Boston

From Toulouse to Boston

I'm a French [architecture] student...To obtain the final degree of architect, I have to do a period of training in an architect's office...What I want is to do this internship in the U.S. because I know a little bit about the U.S. and would like to know more...to discover the American culture, the people, and the architectural knowledge...What I love in Boston is the European spirit of its streets, the character of life that mixes the past and the modern...so very open to creativity, innovation...I'd like to begin in January 2003 in Boston. If you are willing to consider me and would like more information, please write to me at elzita@yahoo.fr.

Elsa Martin, Toulouse

"...My observation is that **most [architectural education] programs find it convenient to promulgate a set of ideologies**...often stultifying individual inquiry as well as intellectual and artistic development...Le Corbusier's little red book, for instance, informs us that the famous five points are all that is required to create a brave new world. A critical examination of the impact of these ideas, however, has revealed that all of these credos have contributed to the systematic destruction of our urban environment...It is not overstating the case to observe that few, if any, [architecture school] faculty enter the teaching ranks prepared to function as educators, as distinct from professionals. This is to say that most faculty [members], regardless of their abilities as practitioners, know very little about teaching skills...I found myself [as a beginning teacher] passing along notions gleaned from my own education without having had the opportunity to test and evaluate these basic assumptions in the field...In the present teaching environment, a growing number of faculty members are entering the ranks with Ph.D. degrees without having had the opportunity to design and erect a building or evaluate treasured predilections..." — David Evan Glasser in "Reflections on Architectural Education" in the *Journal of Architectural Education* (May 2000).

"We're already seeing that **technology is in effect decoupling work activity from the workplace**...It remains to be seen how effective we as a social and psychological organism will adapt to group work decoupled from a shared place. Because if and when that happens, place will essentially have no relevance to the organization...How is it that a group of people can come up with ideas that no one of them is capable of coming up with individually? That may be the next big challenge for us — to make group spaces so compelling that people choose to come to them even when it's possible not to." — Steelcase innovator David Lathrop in a recent roundtable discussion printed in *ArchitectureBoston*, Summer 2000

"...The growth of the last few years has relied on a revival of the **old method of having workers take home piecework**. The real technological shift is not in the sphere of productivity but in making the workplace transportable. We have gone from developing labor-saving devices to developing labor-delivering devices like the laptop, the cell phone, and high-speed residential Internet connections. The problem is that growth becomes a creature of working hours. Firms hit the wall when they can no longer get more hours from the people they have or from new recruits. If the failure of high-tech firms to find the workers they need triggers a recession in the broader economy, we may face a supreme irony: unemployment caused by a labor shortage." — Douglas Green of Vancouver WA in *The New Yorker* (12/11/00)

"...**Academics have completely neglected a component of aesthetics** that most people outside the architecture priesthood agree is missing from many modern buildings: beauty. While the mandarins of architecture debate abstract notions of 'structure' and 'form', millions of intelligent, educated people buy and read books and magazines about — for example — Victorian or other classic old house styles...Moreover, when people are asked to name their favorite skyscraper, they inevitably choose Art Deco masterpieces like the Chrysler Building or the Empire State Building and not the Modernist Sears Tower...In several years, historians will look back on the 20th century as an anomalous period in Western Civilization when several radical — but deeply flawed — cultural dogmas were tried and then discarded: state communism, 12-tone music, and modernist architecture." — Stuart Branson of Brighton in a letter to *The Boston Globe* (8/27/00)

"**Fee-bidding** by designers suggests that they do not value their own services...so why should we?" — an anonymous client

Imminent BSA deadlines

November 5
Deadline for receipt of BSA election ballots

December 20
Ad deadline for the Mar/Apr issue of *ArchitectureBoston* (see p. 11)

January 1
Deadline for written requests for Rotch Traveling Scholarship application guidelines (see p. 6)

ChapterLetter deadlines are listed on p. 1

Classified ad deadline: Thursdays at 4:00 pm

For more information on any of these deadlines, visit the BSA Web site at www.architects.org (click on "News and Events" then "Deadlines")...or call/write 617-951-1433x221/bsa@architects.org.

The BSA ChapterLetter

The BSA ChapterLetter is published monthly by the Boston Society of Architects, 52 Broad Street, Boston 02109-4301. The ChapterLetter is a service provided by AIA members in Massachusetts to the profession, the public, and everyone else with a sense of humor or an interest in 21st-century America. (For out-of-state subscription information, call/write 617-951-1433x228/pmitcheh@architects.org.)

Letters to the editor, suggestions, criticism, encouragement, and manifestations of the light touch are welcome. Submissions may be e-mailed to rfitzgerald@architects.org, faxed (617-951-0845) or mailed (BSA, 52 Broad St., Boston 02109). Photographs may be mailed to the BSA. Digital images (minimum 300 dpi) may be e-mailed to the address above or mailed on disk or CD-ROM to the BSA. Typed, double-spaced material intended for publication must reach the BSA by noon on the deadline dates listed on page 1. Appropriate submissions are edited and published as space, temperament, and prejudices permit.

The BSA is a non-profit, membership service organization and has been an advocate of architectural excellence and public awareness of architecture since 1867.

Membership in the BSA is open to every breathing soul on the planet.
